

Math 223, Fall 2010
Extra Credit Problem for HW #9
Due date: Friday 11/5/10

1. Read this article from ScienceNews (click for the link).
2. Write a short report (say, a couple of paragraphs) about what it has to do with vector calculus. In particular, what techniques from vector calculus do you think the mathematicians quoted are using? How might you use what you know to solve the problem?
